Projects

SMART ATTENDANCE SYSTEM Present
Link: https://github.com/Aayushsuthar
Developed a machine learning based smart attendance system
using face recognition with OpenCV.
The system records live attendance using a webcam and outputs
the attendance in an Excel sheet.
Libraries: Pandas, Haar Cascade, Face Recognition, OpenCV.

Loan Eligibility Prediction System
Link: https://github.com/Aayushsuthar
Developed a full-stack machine learning application to predict loan
eligibility using classification algorithms. Built backend with Python
(Flask, scikit-learn, pandas) and frontend with React. Implemented
data preprocessing, model training, and deployment.

Project Management using Zentry24
Link: https://github.com/Aayushsuthar
Managed projects using the Zentry24 online platform, leveraging task
management, Gantt charts, Kanban boards, time tracking, and team
